Plant and Soil **159**: 305–308, 1994.

Contents Volume 159 (1994)

Selected papers from the **PROCEEDINGS OF AN INTERNATIONAL SYMPOSIUM ON MANAGEMENT OF MYCORRHIZAS IN AGRICULTURE, HORTICULTURE AND FORESTRY**

The mycorrhizal association: just one of many nutrient acquiring specializations in natural ecosystems 1
J.S. Pate

The contributions of mycorrhizal fungi to the determination of plant community structure 11
R. Francis and D.J. Read

An economic approach to evaluate the role of mycorrhizas in managed ecosystems 27
M. Miller, T. McGonigle, H. Addy

Consideration of the taxonomy and biodiversity of Australian ectomycorrhizal fungi 37
M.A. Castellano, N.L. Bougher

Levels of diversity in endomycorrhizal fungi (Glomales, Zygomycetes) and their role in defining taxonomic and non-taxonomic groups 47
J.B. Morton, S.P. Bentivenga

The ecology of ectomycorrhiza formation and functioning 61
G.D. Bowen

An ecological view of the formation of VA mycorrhizas 69
L.K. Abbott and C. Gazey

Comparative structure of vesicular-arbuscular mycorrhizas and ectomycorrhizas 79
R.L. Peterson, P. Bonfante

Nutrient uptake in mycorrhizal symbiosis 89
H. Marschner, B. Dell

Nutrient transport in mycorrhizas: structure, physiology and consequences for efficiency of the symbiosis 103
S.E. Smith, V. Gianinazzi-Pearson, R. Koide, J.W.G. Cairney

Possible role of soil microorganisms in aggregation in soils 115
J.M. Tisdall

Interactions between mycorrhizal fungi and other soil organisms 123
A.H. Fitter, J. Garbaye

The functioning of ectomycorrhizal fungi in the field: linkages in space and time 133
M.P. Amaranthus, D.A. Perry

Research approaches to study the functioning of vesicular-arbuscular mycorrhizas in the field 141
I. Jakobsen

The screening and selection of inoculant arbuscular-mycorrhizal and ectomycorrhizal fungi 149
J.C. Dodd, B.D. Thomson

Genetics of ectomycorrhizal fungi: progress and prospects 159
F. Martin, I.C. Tommerup, D. Tagu

Genetic manipulation in vesicular-arbuscular mycorrhizal fungi 171
Y. Piché, L. Simon, A. Séguin

Host genotype and the formation and function of VA mycorrhizae 179
J.H. Graham, D.M. Eissenstat

Research articles

The effect of root temperature on the induction of nitrate reductase activities and nitrogen uptake rates in arctic plant species 187
O.K. Atkin, W.R. Cummins

Persistence and recovery of introduced *Rhizobium* ten years after inoculation on *Leucaena leucocephala* grown on an Alfisol in southwestern Nigeria 199
N. Sanginga, S.K.A. Danso, K. Mulongoy, A.A. Ojeifo

Implications of calcium nutrition on the response of *Phaseolus vulgaris* L. to salinity 205
P. Cachorro, A. Ortiz, A. Cerdá

Phosphorus depletion in the rhizosphere as influenced by soil moisture 213
T.S. Gahoonia, S. Raza, N.E. Nielsen

Phytoavailability of phosphate adsorbed on ferrihydrite hematite, and goethite 219
G. Guzman, E. Alcantara, V. Barron, J. Torrent

Enzymic degradation of phenolic materials in peatlands – measurement of phenol oxidase activity 227
A. Pind, C. Freeman, M.A. Lock

Direct assessment of symbiotically fixed nitrogen in the rhizosphere of alfalfa 233
M.P. Russelle, D.L. Allen, C.J.P. Gourley

Vertical distribution of maize roots in relation to permanent soil characteristics 245
B. Nicoullaud, D. King, F. Tardieu

Inorganic and organic P in soil solutions from three upland soils, I: Effect of soil solution extraction conditions, soil type and season 255
C.A. Shand, A.E.S. Macklon, A.C. Edwards, S. Smith

Effects of aluminium on the peanut (*Arachis hypogaea* L.) / *Bradyrhizobium* symbiosis 265
D.J. Brady, D.G. Edwards, C.J. Asher

The in vitro screening of 118 *Trichoderma* isolates for antagonism to *Rhizoctonia solani* and an evaluation of different environmental sites of *Trichoderma* as sources of aggressive strains 277
D.J. Askew, M.D. Laing

Biocide manipulation of N flow to investigate root/microbe competition in forest soil **283**
N. Jamieson, K. Killham

Short communications

Effect of IAA on symbiotic germination of an Australian orchid and its production by orchid-associated bacteria **291**
K.G. Wilkinson, K.W. Dixon, K. Sivasithamparam, E.L. Ghisalberti

Triphenyltetrazolium chloride as an indicator of fine-root vitality and environmental stress in coniferous forest stands: Applications and limitations **297**
A. Clemensson-Lindell

Instructions to Authors (1994) **303**

Contents Volume 159 **307**

Author Index **310**
